

**Your expert partners with structural demolition,
dismantling and internal stripping out**

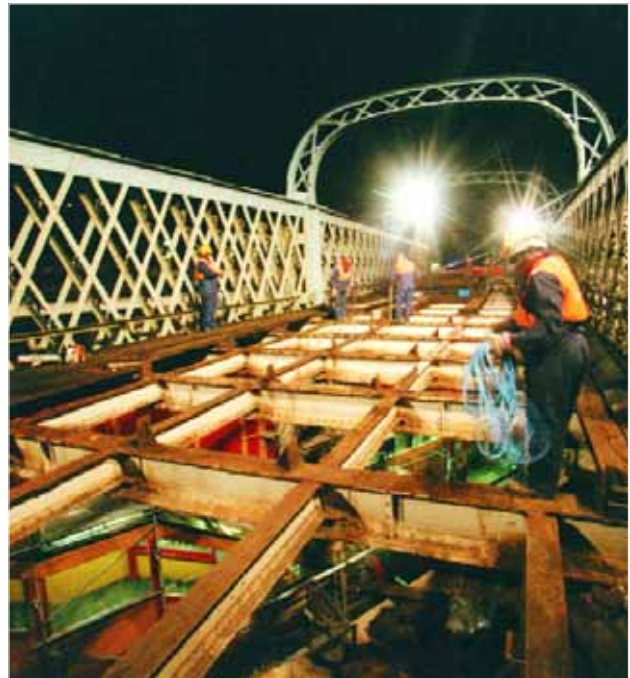

www.dcpdemolition.com

“...providing you with a flexible, safe, cost-effective and problem-free service...”

Demolition Company Partnership (popularly known as DCP) offers a personal and comprehensive package, tailored to your specific needs. Close liaison is constantly maintained with clients and their professionals both pre-contract and throughout the duration of a project assuring excellence in the finished product.

With over 35 years management experience and the proven ability to tackle any demolition or stripping out project with the highest degree of professionalism and efficiency, DCP undertakes many large-scale contracts in and around London and the Home Counties.

DCP is pleased to provide details of these projects and client testimonials upon request.

Brixton Railway Bridge

Health and Safety

DCP has a strict Health and Safety Policy, details of which are available upon request. All work is carried out in accordance with current legislation and plant is maintained and operated to the highest standard.

Every project is individual and DCP employs specialist Health and Safety Consultants and Planning Supervisors to advise on best practise and monitor each project stage. Our vastly experienced operatives have regular training updates as part of an ongoing training programme, to ensure that the most rigorous safety procedures are adhered to. Working regularly on Main Contractor Group (MCG) sites, all operatives are registered with the CITB and are CSCS and NDFC accredited.

DCP has worked as principal contractor on many schemes over the years and holds substantial Public and Employers liability insurance.

Brunel's Railway Engineering Works, Swindon

All Saints church, Dulwich

Diverse Projects:

Over the years DCP has been involved in a wide range of interesting, high profile and varied projects, including:

- Brunel's famous Railway Engineering Works at Swindon.
- Brixton Railway Bridge.
- Demolition of city centre buildings: Leadenhall Street and Trinity Quadrangle, London.
- Mann Egerton building, Norwich.
- Stripping out of Shell Centre, Waterloo, 60,000m², one of the largest strip outs in the UK.
- Fire-damaged All Saints Church, Dulwich.
- Queensmere Shopping Centre, Slough.
- Mount Vernon Research Hospital, Hampstead.
- Christchurch, Spitalfields and Imperial College, London.
- Deptford and Fulham Power Stations.

Special Projects:

Following the fire at Hampton Court Palace and the "Great Fire" at Windsor Castle, DCP was called upon to provide its expertise in making safe extremely dangerous fire-damaged structures. With both projects, the first objective for DCP was to make the structures safe, prior to beginning the delicate dismantling process. It was of vital historical importance to salvage during the course of these operations as much of the existing buildings fabric as possible.

More recently, DCP has been working at the Tower of London as part of the Tower Environs Scheme. The scheme was established as a programme of improvements to enhance visitors, residents and employees experience of this World Heritage site. DCP has been involved with all the demolition elements of the scheme as well as associated building works.

DCP has the expertise to work sensitively with historic buildings and provide innovative solutions to demolition projects at the highest level.

For further details and advice without obligation, please contact DCP as detailed overleaf.
